Index, Volume 101

A

Acetylcholine levels in tissue of choline-deficient weanling rats, effect of coprophagy prevention and antibiotics, 25.

Adenocarcinoma (*see* Tumor)

Adipose tissue, pig, influence of dietary protein and fat on lipogenesis and enzymatic activity, 869.

Adrenal glands in sodium-deficient pregnant rats, ultrastructure, 1045.

— lipids, fatty acids of, in rats fed partially hydrogenated soybean fat, 315.

Age dependence of carbohydrate metabolism in two strains of rats, 323.

—, zinc, and related dietary factors, effect on tissue histamine of chick, 1623.

AHLUWALIA, B., AND J. G. BIERI. Local stimulatory effect of vitamin A on spermatogenesis in the rat, 141.

AHRENS, R. A., L. KAUL AND M. E. HURNEY. Effect of dietary carbohydrate source in controlling voluntary physical activity in rats, 889.

AHRENS, R. A., AND E. T. KOH. Effect of dietary carbohydrate source in controlling body composition changes due to forced exercise in rats, 885.

Alanine aminotransferase activity in liver and erythrocytes of pregnant and nonpregnant rats fed different levels of pyridoxine, 85.

Alcohol-induced fatty liver, fat and nitrogen balances in rats with, 1307.

Aldehyde treatments of soybean meal, effects on in vitro ammonia release, solubility and lamb performance, 605.

ALDERSON, N. E., G. E. MITCHELL, JR., C. O. LITTLE, R. E. WARNER AND R. E. TUCKER. Preintestinal disappearance of vitamin E in ruminants, 655.

ALEXIS, S. D., G. VILAIRE AND V. R. YOUNG. Cell-free studies of protein synthesis with skeletal muscle from normal and potassium-depleted rats, 273.

Alfalfa diets fed to meadow vole, nutrition studies, 1367.

ALLAWAY, W. H. See Hurt, H. D., 363.

ALLEE, G. L., D. H. BAKER AND G. A. LEVEILLE. Fat utilization and lipogenesis in the young pig, 1415.

ALLEE, G. L., E. K. O'HEA, G. A. LEVEILLE AND D. H. BAKER. Influence of dietary protein and fat on lipogenesis and enzymatic activity in pig adipose tissue, 869.

ALLEN, L. H., AND F. J. ZEMAN. Influence of increased postnatal food intake on body composition of progeny of protein-deficient rats, 1311.

Altitude, high, anorexic effect on weight gain, nitrogen retention and body composition of rats, 787.

American Institute of Nutrition, proceedings, 35th annual meeting, 1971, 1271.

AMINE, E. K., AND D. M. HEGSTED. Effect of diet on iron absorption in iron-deficient rats, 927.

AMINE, E. K., AND D. M. HEGSTED. Iron deficiency lipemia in the rat and chick, 1575.

Amino acid(s) and protein in choline-deficient diet, effect on lipid accumulation in rat liver, 739.

— catabolism in rats, effect of force-feeding diets devoid of leucine, valine, isoleucine, threonine, or methionine, 1647.

— composition of cecal contents and feces in germfree and conventional rabbits, 1423.

—, crystalline, protein and energy utilization by chicks fed, 1249.

— deficiencies, acute, chemical pathology: reversibility of the pathologic changes in rats force-fed a threonine-devoid diet, 1727.

—, essential, effect of restriction on growth of tumors in female mice, 223.

—, free, in plasma of chicken, effect of dietary protein level, 1225.

—, —, patterns in chicks, relation to dietary cations and arginine–lysine antagonism, 377.

—, —, plasma concentration and urinary excretion in adult man, effect of vitamin B_6 depletion, 185.

—, individual, effect of excess levels on growth of rats fed casein diets, 1117.

— levels in plasma of adult men, daily fluctuation: effect of dietary tryptophan intake and distribution of meals, 61.

—, limiting, in castor bean meal, detoxification and determination, 1185.

— patterns in ruminal bacteria and blood plasma of steers fed high fiber purified diets, influence of urea, biuret and starch, 839.

— requirements of man, a conspectus (monogr.), 539.

— — of the aphid *Myzus persicae* affected by antibiotic uptake, 1023.

—, specific, effect on in vitro protein synthesizing system, rats, 1589.

— supplementation of fish protein concentrate, effect on nutritional quality in rat diet, 367.

— — of *opaque*-2 corn diets for growing rats, 1241.

Aminotransferase, alanine, activity in liver and erythrocytes of pregnant and nonpregnant rats fed different levels of pyridoxine, 85.

Ammonia release, solubility and lamb performance, effects of aldehyde treatments of soybean meal, in vitro, 605.

ANDREWS, J. W. See Stickney, R. R., 1703.

Anemia induced in guinea pigs by cholesterol, effects of dietary modifications, 699.

Anorexia at high altitude affecting weight gain, nitrogen retention and body composition of rats, 787.

— of thiamin deficiency in rat, biochemical factors, 731.

Anorexigenic substance in rat urine, some dietary influences on excretion and biological activity, 767.
Antagonism of arginine on zinc metabolism in chicks, 1695.
ANTEZANA, C. See Rodrigo, C., 1307.
ANTHONY, W. L. See Hsu, J. M., 445.
Antibiotic(s) and coprophagy prevention, effect on tissue levels of acetylcholine in choline-deficient weanling rats, 25.
— uptake affecting dietary amino acid requirements of the aphid *Myzus persicae*, 1023.
Antioxidants, selenium, and vitamin E, effect on incidence of exudative diathesis in chick, 1399.
Antiriboflavin action, specific, in kidney and utilization of 7-chloro-8-methyl-flavin, rat, 1137.
Antithyrotoxic factor in roughages and other materials as measured by bioassay techniques, rats, 621.
AOYAMA, Y., H. YASUI AND K. ASHIDA. Effect of dietary protein and amino acids in a choline-deficient diet on lipid accumulation in rat liver, 739.
APGAR, W. P. See Hoover, W. H., 1595.
Aphid, *Myzus persicae*, amino acid requirements affected by antibiotic uptake, 1023.
ARGENZIO, R. A., AND H. F. HINTZ. Volatile fatty acid tolerance and effect of glucose and VFA on plasma insulin levels in ponies, 723.
Arginine and methionine, relationship to creatine formation in chicks, 855.
—, antagonistic effect on zinc metabolism in chicks, 1695.
— metabolism in chicks, influence of diet and heredity, 1403.
—, relationship with methionine in nutrition of chick and significance of creatine biosynthesis in their interaction, 217.
— –lysine antagonism, relation of dietary cations to, and free amino acid patterns in chicks, 377.
ARGOUDELIS, C. J. Growth effects of a pyridoxol analogue, 3-hydroxy-2,4,5-trihydroxymethylpyridine, 71.
Arterial tissue, rat, in vitro studies on effect of different dietary fats and different proportions of dietary protein on lipid synthesis, 713.
Ascorbic acid, effect on cadmium toxicity in young coturnix, 1295.
—, microscopic and biochemical observations of aortae of turkeys fed copper-deficient diets with or without ascorbic acid, 1359.
L-Ascorbic acid metabolism in guinea pigs with alimentary cholesterol atheromatosis, 197.
ASHIDA, K. See Aoyama, Y., 739; Horie, Y., 1319; Nakano, K., 895; Yamashita, K., 1607.
Aspartate and ornithine carbamoyltransferases in rat liver, effect of starvation, dietary protein and partial hepatectomy, 1467.
Asplanchna sieboldi response to dietary α-tocopherol, 113.
Atheromatosis, cholesterol, alimentary, metabolism of L-ascorbic acid in guinea pigs with, 197.
ATWAL, A. S., A. R. ROBBLEE AND L. P. MILLIGAN. Effects of dietary biotin on liver pyruvate carboxylase and ^{32}P incorporation into nucleic acids in livers of chicks, 1555.
AUSTIC, R. E., AND M. C. NESHEIM. Arginine, ornithine and proline metabolism of chicks: influence of diet and heredity, 1403.
8-Azaguanine, effect on serum insulin and NADP-linked dehydrogenases of rat liver, 1147.

B

Baboon, milk yield, evaluation of four methods for estimating, 901.
BABALA, J. See Ginter, E., 197.
BAI, P., M. BENNION AND C. J. GUBLER. Biochemical factors involved in the anorexia of thiamin deficiency in rats, 731.
BAKER, D. H. See Allee, G. L., 869, 1415; Velu, J. G., 1249.
Balance studies in man, sweat and miscellaneous nitrogen losses, 775.
BALDWIN, R. L. See Howarth, R. E., 477, 485.
BAR, A. See Hurwitz, S., 677.
BARAK, A. J., D. J. TUMA AND H. C. BECKENHAUER. Ethanol feeding and choline deficiency as influences on hepatic choline uptake, 533.
BARAONA, E. See Rodrigo, C., 1307.
BARNES, R. H. See Kwong, E., 25.
BARRIO, J. R. See Gallina, D. L., 1165.
BAUER, D. H. See Evans, R. J., 355.
BAUMANN, C. A. See Kline, O. L., 569.
BAUMGARDT, B. R. See Peterson, A. D., 1057, 1069.
BEAMER, K. C. See Krause, R. F., 161.
BECKENHAUER, H. C. See Barak, A. J., 533.
Behavior, emotional, of offspring of underfed mother rats, 331.
BÉLANGER, L. F. See Krook, L., 233.
BENNION, M. See Bai, P., 731.
BENSON, J. D. See Emery, R. S., 831.
BERDANIER, C. D. See Szepesi, B., 863, 1147, 1563.
BERG, C. P. See Loh, H. H., 465, 1351, 1601.
BERGEN, W. G. See Makdani, D. D., 367.
BIERI, J. G. See Ahluwalia, B., 141; Peake, I. R., 1615.
Biliary and urinary excretion and enterohepatic recycling of vitamin A in sheep, 1169.
Bioassay techniques with rats to measure antithyrotoxic factor in roughages and other materials, 621.
Bioflavonoids as a new growth factor for the cricket, *Acheta domesticus*, 1217.
Biographical sketches: Martin, Sir Charles James, 1; Elvehjem, Conrad Arnold, 569; Thomas, Karl, 1109.
Biotin, dietary, effects on liver pyruvate carboxylase and ^{32}P incorporation into nucleic acids in livers of chicks, 1555.
Biotin-deficient chicks, effect of essential fatty acid deficiency and type of dietary fat supplementation, 811.
BIRKY, C. W., JR. See Gilbert, J. J., 113.
Blood plasma and ruminal bacteria of steers fed high fiber purified diets, influence of urea, biuret and starch on amino acid patterns, 839.
BLUNN, C. T. See Jurgens, M. H., 153.
Body composition changes due to forced exercise in rats, effect of dietary carbohydrate source, 885.
— —, growth and metabolism of channel catfish (*Ictalurus punctatus*), effect of dietary lipids and environmental temperature, 1703.

— — of progeny of protein-deficient rats, influence of increased postnatal food intake, 1311.
— —, weight gain and nitrogen retention, anorexic effect of high altitude on, rat, 787.
— and hair growth, effect of quality and quantity of protein, rat, 947.
Bovine hypervitaminosis A, chronic, composition of dura mater, 1541.
Brain of neonatal rat, alteration of DNA and protein by timing of maternal dietary protein restriction, 1265.
BRENNER, R. R. See Peluffo, R. O., 1075.
BULL, L. S., AND G. C. PITTS. Gastric capacity and energy absorption in the force-fed rat, 593.
BURTON, R. R. See Smith, A. H., 13.
BUSS, D. H., AND W. R. VOSS. Evaluation of four methods for estimating the milk yield of baboons, 901.
1,3-Butanediol, metabolic fate in rat, conversion to β-hydroxybutyrate, 1719.
—, metabolic fate in rat liver, 1711.

C

Cadmium toxicity in the young coturnix, effect of ascorbic acid, 1295.
Calcification of kidney, in magnesium-deficient rat, attempts to alter by dietary variables, 35.
— of soft tissue in KK mice fed low-magnesium high-phosphorus diet, causing acute changes in various plasma components, 635.
Calcium and phosphorus interrelationships in intestine of fowl, 677.
— metabolism in ponies fed a high phosphorus diet, 259.
CALLOWAY, D. H., AND S. MARGEN. Variation in endogenous nitrogen excretion and dietary nitrogen utilization as determinants of human protein requirements, 205.
CALLOWAY, D. H., A. C. F. ODELL AND S. MARGEN. Sweat and miscellaneous nitrogen losses in human balance studies, 775.
CALLOWAY, D. H. See Weller, L. A., 1499.
Caloric density, food and energy intake of rats fed diets varying in, 1057.
Calorie-low diets, human utilization of urea nitrogen in, 1029.
Calorie–protein malnutrition in rats, experimental, hepatic lesions and immediate effects of refeeding an adequate protein diet, 501.
Calves, Holstein, fed nontoxic zinc levels, endogenous zinc excretion and ^{65}Zn metabolism, 1673.
Carbohydrate(s) and fat in diet, modification of ethanol-induced changes in rat liver composition, 997.
—, dietary, metabolic adaptation in two strains of rats at three ages, 323.
— diets, high, gluconeogenic and lipogenic enzyme activities in growing chicks fed, 755.
— metabolism in rats fed carbohydrate-free diets, 693.
— moiety in high yielding varieties of rice, 879.
— source, dietary, effect in controlling body composition changes due to forced exercise in rats, 885.
— —, dietary, effect in controlling voluntary physical activity in rats, 889.
Carbohydrate-free diets, carbohydrate metabolism in rats fed, 693.
— — containing various lipid energy sources, carcass composition of chickens fed, 989.
—, high-protein diet, metabolic responses of chicks during adaptation to, 1127.
Carbon dioxide, elevated ambient, ovine nutritional responses, 1595.
CARROLL, C., AND L. WILLIAMS. Modification of ethanol-induced changes in rat liver composition by the carbohydrate–fat component of the diet, 997.
CARY, E. E. See Hurt, H. D., 363, 761.
Casein diets, effect of excess levels of individual amino acids on growth of rats fed, 1117.
—, fish protein concentrate and isolated soybean protein, relative utilization for growth and pancreatic enzyme regeneration of the protein–calorie malnourished baby pig, 1193.
Casein-low diet supplemented with methionine, influence of insulin, hydrocortisone and thyroxine on fatty liver of rats fed, 1391.
Castor bean meal as protein source for chickens: detoxification and determination of limiting amino acids, 1185.
CATIGNANI, G. L., JR., AND J. S. DINNING. Role of vitamin E in the regulation of rabbit liver xanthine dehydrogenase activity, 1327.
Cations, dietary, relation to arginine–lysine antagonism and free amino acid patterns in chicks, 377.
—, monovalent, influence on growth and lactic acid metabolism of sheep fed purified diets, 967.
Cecal contents and feces in germfree and conventional rabbits, amino acid composition, 1423.
Cellular approach to determination of pyridoxine requirements in pregnant and nonpregnant rats, 661.
— growth in experimental intrauterine growth retardation in rats, 1631.
Ceroid in the products of conception of normal and vitamin E-deficient rats, 959.
Ceruloplasmin and maternal iron mobilization (Letter to the Editor), 567.
ČERVEŇ, J. See Ginter, E., 197.
CHALVARDJIAN, A. Further studies on the partial lipotropic effect of dextrin in choline-deficient rats, 193.
CHANG, M. L. W., J. A. LEE, E. M. SCHUSTER AND D. L. TROUT. Metabolic adaptation to dietary carbohydrates in two strains of rats at three ages, 323.
CHASE, H. P. See Kumar, V., 1509.
Chemical pathology of acute amino acid deficiencies: reversibility of the pathologic changes in rats force-fed a threonine-devoid diet, 1727.
Chick(s), antagonistic effect of arginine on zinc metabolism, 1695,
—, avian model for estimation of metabolizable energy of foodstuffs, 1211.
—, biotin-deficient, effect of essential fatty acid deficiency and type of dietary fat supplementation, 811.
—, calcium and phosphorus interrelationships in intestine, 677.
—, choline-deficient, gall bladder distension, 1233.

—, effect(s) of dietary biotin on liver pyruvate carboxylase and ^{32}P incorporation into nucleic acids in livers, 1555.
—, — of selenium, antioxidants, and vitamin E on exudative diatheses, 1399.
—, — of supplemental phytase on utilization of phytate phosphorus, 1289.
—, fasted, in vitro and in vivo restoration of hepatic lipogenesis, 803.
— fed graded levels of a balanced mixture of crystalline amino acids, protein and energy utilization, 1249.
—, growing, fed high fat and high carbohydrate diets, gluconeogenic and lipogenic enzyme activities, 755.
—, influence of diet and heredity on arginine, ornithine and proline metabolism, 1403.
—, iron deficiency lipemia, 1575.
— liver, relationship between lipogenesis and the level of coenzyme A derivatives, lactate and pyruvate, 911.
—, metabolic responses during adaptation to a high protein, "carbohydrate-free" diet, 1127.
—, relation of dietary cations to arginine–lysine antagonism and free amino acid patterns, 377.
—, relationship of arginine and methionine in nutrition, and significance of creatine biosynthesis in their interaction, 217.
—, — of arginine and methionine to creatine formation, 855.
— tissues, histamine content, effect of zinc, related dietary factors, and age, 1623.
Chicken(s), calcium and phosphorus interrelationships in intestine, 677.
—, castor bean meal as protein source, detoxification and determination of limiting amino acids, 1185.
— diet containing sitosterol, reduction of egg cholesterol by, 289.
—, dystrophic, retardation of fat infiltration in atrophic muscle by diet or exercise, 453.
—, effect of dietary protein level on plasma free amino acids, 1225.
— fed carbohydrate-free diets containing various lipid energy sources, carcass composition, 989.
—, hereditary susceptibility to dietary induction of gout, 347.
—, maintenance feed requirement, influence of gravity, 13.
7-Chloro-8-methyl-flavin, utilization in the rat and its specific antiriboflavin action in the kidney, 1137.
CHOLAKOS, B. V. See Young, V. R., 1475.
Cholesteremia and vitamin D_2 in the growing rat, 153.
Cholesterol absorption in sulfaguanidine-fed rats, specific inhibition, 1515.
— and glucose in rat serum, influence of sugars, chromium and other trace metals, 247.
— atheromatosis, alimentary, metabolism of L-ascorbic acid in guinea pigs, 197.
— in egg, reduction by sitosterol in chicken diet, 289.
— synthesis in rat liver, effects of simple diets, 437.
Cholesterol-induced anemia in guinea pigs, effects of dietary modifications, 699.
Choline deficiency and ethanol feeding, influence on hepatic choline uptake, 533.
— —, chicks, gall bladder distension, 1233.
— — in maternal diets causing hypertension in young rats, 1657.
— —, rats, lipotropic effect of dextrin, 193.
— —, weanling rats, effect of coprophagy prevention and antibiotics on tissue levels of acetylcholine, 25.
— uptake in liver as influenced by ethanol feeding and choline deficiency, 533.
Choline-deficient diet, effect of protein and amino acids on lipid accumulation in rat liver, 739.
CHOW, B. See Stephan, J. K., 1453.
CHOW, B. F. See Simonson, M., 331, Stephan, J. K., 1453.
Chromium and other trace metals, influence on serum cholesterol and glucose in rats, 247.
—, scandium, gallium, yttrium, rhodium, palladium, indium in mice: effects on growth and life span, 1431.
Citrate metabolism in rat, effect of toxic levels of dietary fluoride, 1037.
Citric acid, magnesium metabolism of sheep fed different levels of potassium and, 1483.
CLARENBURG, R., I. A. KIM CHUNG AND L. M. WAKEFIELD. Reducing the egg cholesterol level by including emulsified sitosterol in standard chicken diet, 289.
Cockerel, direct effects of essential fatty acid deficiency at the hypothalamus–pituitary level, 1683.
Coenzyme A derivatives, lactate and pyruvate in chick liver, relationship with lipogenesis, 911.
COLEMAN, B. W., E. M. REIMANN, R. H. GRUMMER, M. L. SUNDE AND W. G. HOEKSTRA. Antagonistic effect of arginine on zinc metabolism in chicks, 1695.
COLOMBARA, E., M. IHL AND M. A. TAGLE. Serum deoxyribonuclease I and its inhibitor in growing and pregnant rats, 1525.
Conception products of normal and vitamin E-deficient rats, ceroidogenesis, 959.
CONRAD, H. R. See Mugerwa, J. S., 1331.
CONRAD, J. H. See Miller, G. M., 1343.
Copper, hepatic, in rats, effect of supplementary zinc on intracellular distribution, 1093.
Copper-deficient diets with and without ascorbic acid, microscopic and biochemical observations of aortae of turkeys fed, 1359.
COPPING, A. M. Sir Charles James Martin — a biographical sketch, 1.
Coprophagy prevention and antibiotics, effect on tissue levels of acetylcholine in choline-deficient weanling rats, 25.
Corn, Colombian *opaque-2*, protein value for adult men, 1475.
—, *opaque-2*, diets for growing rats, amino acid supplementation, 1241.
Cottonseed meal, effect on visceral granuloma in brook trout, 1459.
— oil in diet of laying hens, influence on lipovitellins in eggs, 355.
Coturnix, young, effect of ascorbic acid on cadmium toxicity, 1295.
Cow, urea kinetics in dairy cows, relationship of dietary nonprotein nitrogen, 1331.
CRAIG, P. H. See Schryver, H. F., 259, 1257.

Creatine biosynthesis in chick, interaction of dietary arginine and methionine, 217.
— formation in chicks, relationship of arginine and methionine, 855.
— in the regulation of kidney transamidinase activities in the rat, evidence for a dual role, 1085.
Cricket, *Acheta domesticus*, bioflavonoids as a new growth factor, 1217.
Cyclamate (^{14}C), distribution in the lactating rat, 1635.
Cystine-^{35}S incorporation into skin protein by zinc-deficient rats, impairment, 445.

No. 1 JANUARY 1971

Sir Charles James Martin — A Biographical Sketch. *Alice M. Copping* .. 1

Influence of Dietary Protein on the Activity of Microsomal Epoxidase in the Growing Rat. *Willard M. Weatherholtz and Ryland E. Webb* 9

Influence of Gravity on the Maintenance Feed Requirements of Chickens. *Arthur H. Smith, Russell R. Burton and C. F. Kelly* 13

Effect of Coprophagy Prevention and Antibiotics on Tissue Levels of Acetylcholine in Choline-deficient Weanling Rats. *Eva Kwong and Richard H. Barnes* 25

Effect of Vitamin B_6 Deficiency on Tissue Dehydrogenases and Fat Synthesis in Rats. *Dennis J. Sabo, Ralph P. Francesconi and Stanley N. Gershoff* 29

Attempts to Alter Kidney Calcification in the Magnesium-deficient Rat. *R. M. Forbes* 35

Plasma Tryptophan Response Curve and Its Relation to Tryptophan Requirements in Young Adult Men. *Vernon R. Young, Mohammed A. Hussein, Edwina Murray and Nevin S. Scrimshaw* 45

Daily Fluctuation of Plasma Amino Acid Levels in Adult Men: Effect of Dietary Tryptophan Intake and Distribution of Meals. *Mohammed A. Hussein, Vernon R. Young, Edwina Murray and Nevin S. Scrimshaw* 61

Growth Effects of a Pyridoxol Analogue, 3-Hydroxy-2,4,5-trihydroxymethylpyridine. *C. J. Argoudelis* 71

Testicular and Esophageal Lesions in Zinc-deficient Rats and Their Reversibility. *Israel Diamond, Helene Swenerton and Lucille S. Hurley* 77

Alanine Aminotransferase Activity in Liver and Erythrocytes of Pregnant and Nonpregnant Rats Fed Different Levels of Pyridoxine. *Judy A. Driskell, Joyce H. Wiley and Avanelle Kirksey* 85

Early Effects of Protein Depletion on Hepatic Glycoprotein Synthesis in the Rat. *Yoshio Taoka and Louis Charles Fillios* 93

Influence of the Branched-chain Volatile Fatty Acids and Phenylacetate on Ruminal Microorganisms and Nitrogen Utilization by Steers Fed Urea or Isolated Soy Protein. *R. R. Oltjen, L. L. Slyter, E. E. Williams, Jr. and D. L. Kern* 101

Sensitivity and Specificity of the *Asplanchna* Response to Dietary α-Tocopherol. *John J. Gilbert and C. W. Birky, Jr.* 113

Guide for Authors 127

Tentative Rules for Generic Descriptors and Trivial Names for Vitamins and Related Compounds 133

No. 2 FEBRUARY 1971

Local Stimulatory Effect of Vitamin A on Spermatogenesis in the Rat. *B. Ahluwalia and J. G. Bieri* 141

Vitamin D_3 and Cholesterolemia in the Growing Rat. *M. H. Jurgens, C. T. Blunn and E. R. Peo, Jr.* 153

Phospholipid Metabolism in Vitamin A-deficient Rats. *R. F. Krause, Kathryn C. Beamer and Jane H. Plow* 161

Increased Sodium Chloride Appetite during Pregnancy in the Rat. *Ruth L. Pike and Christina Yao* 169

L-Phenylalanine and L-Tyrosine Requirements of the Growing Rat. *W. L. Stockland, Y. F. Lai, R. J. Meade, J. E. Sowers and G. Oestemer* 177

Effect of Vitamin B_6 Depletion in Adult Man on the Plasma Concentration and the Urinary Excretion of Free Amino Acids. *Youngmee Kang Park and Hellen Linkswiler* 185

Further Studies on the Partial Lipotropic Effect of Dextrin in Choline-deficient Rats. *A. Chalvardjian* 193

Metabolism of L-Ascorbic Acid-1-^{14}C in Guinea Pigs with Alimentary Cholesterol Atheromatosis. *E. Ginter, Z. Zloch, J. Červeň, R. Nemec and J. Babala* 197

Variation in Endogenous Nitrogen Excretion and Dietary Nitrogen Utilization as Determinants of Human Protein Requirement. *Doris Howes Calloway and Sheldon Margen* 205

Relationship of Arginine and Methionine in the Nutrition of the Chick and the Significance of Creatine Biosynthesis in Their Interaction. *Kavous Keshavarz and H. L. Fuller* 217

Effect of Essential Amino Acid Restriction on the Growth of Female C57BL Mice and Their Implanted BW10232 Adenocarcinomas. *Richard C. Theuer* 223

Reversibility of Nutritional Osteoporosis: Physicochemical Data on Bones from an Experimental Study in Dogs. *Lennart Krook, Leo Lutwak, Per-Ake Henrikson, Francis Kallfelz, Carl Hirsch, Bertil Romanus, Leonard F. Bélanger, John R. Marier and Ben E. Sheffy* 233

Influence of Various Sugars, Chromium and Other Trace Metals on Serum Cholesterol and Glucose of Rats. *Henry A. Schroeder, Marian Mitchener and Alexis P. Nason* 247

Calcium Metabolism in Ponies Fed a High Phosphorus Diet. *H. F. Schryver, H. F. Hintz and P. H. Craig* 259

Factors Influencing the in vivo and in vitro Rates of Lipogenesis in Rat Liver. *Ann C. Sullivan, O. Neal Miller, James S. Wittman, III and James G. Hamilton* 265

Cell-free Studies of Protein Synthesis with Skeletal Muscle from Normal and Potassium-depleted Rats. *Sunney D. Alexis, Gaston Vilaire and Vernon R. Young* 273

No. 3 MARCH 1971

EDITORIAL: Publication of Supplements. *Fredric W. Hill* 287

Reducing the Egg Cholesterol Level by Including Emulsified Sitosterol in Standard Chicken Diet. *Rudolf Clarenburg, Inhi A. Kim Chung and Lucille M. Wakefield* 289

Utilization of Fat and Glycerol for Glycogenesis by the Neonatal Rat. *John D. Johnson, Ruth Hurwitz and Norman Kretchmer* 299

Occurrence of Eicosadienoic Acids in Liver Lipids of Rats Fed Partially Hydrogenated Soybean Fat. *Peter O. Egwim and Demetrios S. Sgoutas* 307

The Fatty Acids of Adrenal Lipids from Rats Fed Partially Hydrogenated Soybean Fat. *Peter O. Egwim and Demetrios S. Sgoutas* 315

Metabolic Adaptation to Dietary Carbohydrates in Two Strains of Rats at Three Ages. *M. L. W. Chang, J. A. Lee, E. M. Schuster and D. L. Trout* 323

Open Field Studies in Offspring of Underfed Mother Rats. *M. Simonson, J. K. Stephan, H. M. Hanson and B. F. Chow* 331

Synthesis and Degradation of Liver Ribosomal RNA in Fed and Fasted Rats. *Cyril O. Enwonwu, Roger Stambaugh and Leo Sreebny* 337

Hereditary Susceptibility to Dietary Induction of Gout in Selected Lines of Chickens. *D. W. Peterson, W. H. Hamilton and A. L. Lilyblade* .. 347

Influence of Feeding Cottonseed Oil to Laying Hens on the Lipovitellins of Their Eggs. *Robert John Evans, Doris H. Bauer and Cal J. Flegal* .. 355

Effect of Dietary Selenium on the Survival of Rats Exposed to Chronic Whole Body Irradiation. *H. D. Hurt, E. E. Cary, W. H. Allaway and W. J. Visek* 363

Effect of Histidine and Methionine Supplementation on the Nutritional Quality of Commercially Prepared Fish Protein Concentrate in Rat Diets. *D. D. Makdani, J. T. Huber and W. G. Bergen* 367

Relation of Dietary Cations to Arginine–Lysine Antagonism and Free Amino Acid Patterns in Chicks. *M. W. Stutz, J. E. Savage and B. L. O'Dell* 377

MONOGRAPH: A Conspectus of Research on Protein Requirements of Man. *M. Isabel Irwin and D. Mark Hegsted* 385

No. 4 APRIL 1971

Protein Loss from the Normal Human Small Intestinal Mucosa. *L. R. Da Costa* 431

Effects of Simple Diets on Cholesterol Synthesis in Rat Liver. *Ernest B. Terrell and David M. Regen* 437

Impairment of Cystine-^{35}S Incorporation into Skin Protein by Zinc-deficient Rats. *J. M. Hsu and W. L. Anthony* 445

Retardation of Fatty Infiltration in Atrophic Muscle of Genetically Dystrophic Chickens by Diet or Exercise. *D. W. Peterson, W. H. Hamilton and A. L. Lilyblade* 453

Production of D-Kynurenine and Other Metabolites from D-Tryptophan by the Intact Rabbit and by Rabbit Tissue. *Horace H. Loh and Clarence P. Berg* 465

Synthesis and Accumulation of Protein and Nucleic Acid in Rat Gastrocnemius Muscles during Normal Growth, Restricted Growth, and Recovery from Restricted Growth. *R. E. Howarth and R. L. Baldwin* 477

Concentrations of Selected Enzymes and Metabolites in Rat Skeletal Muscle: Effects of Food Restriction. *R. E. Howarth and R. L. Baldwin* 485

Correlation between the Nutritive Value of Dietary Protein and the Activity of Kidney Transamidinase of Growing Rats. *Hisanao Takeuchi and Keiichiro Muramatsu* 495

Studies of Hepatic Lesions of Experimental Protein–Calorie Malnutrition in Rats and Immediate Effects of Refeeding an Adequate Protein Diet. *Cyril O. Enwonwu and Leo M. Sreebny* 501

Steroids Influencing the Toxicity of L-Tyrosine. *Hans Selye* 515

Placental Transfer of Fluoride and Tin in Rats Given Various Fluoride and Tin Salts. *Richard C. Theuer, Arthur W. Mahoney and Herbert P. Sarett* 525

Ethanol Feeding and Choline Deficiency as Influences on Hepatic Choline Uptake. *A. J. Barak, D. J. Tuma and H. C. Beckenhauer* 533

MONOGRAPH: A Conspectus of Research on Amino Acid Requirements of Man. *M. Isabel Irwin and D. Mark Hegsted* 539

Letters 567

No. 5 MAY 1971

Conrad Arnold Elvehjem — A Biographical Sketch. *O. L. Kline and Carl A. Baumann* 569

Vitamin B_{12} Deficiency in the Rat Fed High Protein Rations. *L. P. Dryden and A. M. Hartman* 579

Effect of Vitamin B_{12} on the Metabolism in the Rat of Volatile Fatty Acids. *L. P. Dryden and A. M. Hartman* 589

Gastric Capacity and Energy Absorption in the Force-fed Rat. *Leonard S. Bull and Grover C. Pitts* 593

Lack of Mobilization of Bone and Liver Zinc under Teratogenic Conditions of Zinc Deficiency in Rats. *Lucille S. Hurley and Helene Swenerton* 597

Effects of Aldehyde Treatments of Soybean Meal on in vitro Ammonia Release, Solubility and Lamb Performance. *A. P. Peter, E. E. Hatfield, F. N. Owens and U. S. Garrigus* 605

Effect of Protein Nutrition on Growth and Life Span in the Rat. *Itsiro Nakagawa and Youko Masana* 613

Use of Bioassay Techniques with Rats to Measure the Antithyrotoxic Factor in Roughages and Other Materials. *R. W. Wallenius, J. W. Hibbs and T. V. Hershberger* 621

Effects of Potassium in a Purified Equine Diet. *Howard D. Stowe* 629

Acute Changes in Inorganic Phosphorus, Urea, and Alkaline Phosphatase of Plasma and Glomerular Filtration Rate during the Development of Soft Tissue Calcification in the KK Mice Fed a Diet Low in Magnesium and High in Phosphorus. *Yukihiko Hamuro* 635

Effects of Methionine and Inorganic Sulfate on Indole Toxicity and Indican Excretion in Rats. *Daphne A. Roe* 645

Preintestinal Disappearance of Vitamin E in Ruminants. *N. E. Alderson, G. E. Mitchell, Jr., C. O. Little, R. E. Warner and R. E. Tucker* 655

The Cellular Approach to the Determination of Pyridoxine Requirements in Pregnant and Nonpregnant Rats. *Judy A. Driskell and Avanelle Kirksey* 661

Undernutrition in the Neonate: Long-term Effects upon Mitochondrial and Microsomal Constituents of the Rat Hepatocyte. *Peter R. Dallman* .. 669

Calcium and Phosphorus Interrelationships in the Intestine of the Fowl. *Shmuel Hurwitz and Arie Bar* 677

Erratum (Taoka, T., and L. C. Fillios, *101:* 93) 687

No. 6 JUNE 1971

Invitation for Nominations for 1972 American Institute of Nutrition Awards 689

Invitation for Nominations for 1972 American Institute of Nutrition Fellows 691

Carbohydrate Metabolism in Rats Fed Carbohydrate-free Diets. *A. Goldberg* 693

Effects of Dietary Modifications on Cholesterol-induced Anemia in Guinea Pigs. *R. Ostwald, W. Yamanaka, D. Irwin, H. Hansma, M. Light and K. Tom* 699

In vitro Studies on the Effect of Different Dietary Fats and Different Proportions of Dietary Protein on the Synthesis of Lipids by Rat Arterial Tissue. *Chhabirani Mukherjee, Sakti Prasad Mukherjee and Supravat Mukherjee* 713

Volatile Fatty Acid Tolerance and Effect of Glucose and VFA on Plasma Insulin Levels in Ponies. *R. A. Argenzio and H. F. Hintz* 723

Biochemical Factors Involved in the Anorexia of Thiamin Deficiency in Rats. *Pearl Bai, M. Bennion and C. J. Gubler* 731

Effect of Dietary Protein and Amino Acids in a Choline-deficient Diet on Lipid Accumulation in Rat Liver. *Yoritaka Aoyama, Hiromi Yasui and Kiyoshi Ashida* 739

Nutritional Response to Feeding L-Phenyllactic, Shikimic and D-Quinic Acids in Weanling Rats. *Eli Seifter, Giuseppe Rettura, David Reissman, Demetrios Kambosos and Stanley M. Levenson* 747

Gluconeogenic and Lipogenic Enzyme Activities in Growing Chicks Fed High Fat and High Carbohydrate Diets. *Mathew M. Madappally, Robert J. Paquet, Myron A. Mehlman and Richard B. Tobin* 755

Growth, Reproduction, and Tissue Concentrations of Selenium in the Selenium-depleted Rat. *H. D. Hurt, E. E. Cary and W. J. Visek* 761

Some Dietary Influences on the Excretion and Biological Activity of an Anorexigenic Substance in the Urine of Rats. *Carrie S. Mukaida and Ira J. Lichton* 767

Sweat and Miscellaneous Nitrogen Losses in Human Balance Studies. *Doris Howes Calloway, Amy C. F. Odell and Sheldon Margen* 775

The Anorexic Effect of High Altitude on Weight Gain, Nitrogen Retention and Body Composition of Rats. *D. D. Schnakenberg, L. F. Krabill and P. C. Weiser* 787

Response of Several Hepatic Adaptive Enzymes to a Shift from Low to High Protein Diet in Intact and Adrenalectomized Rats. *Robert D. Reynolds, Van R. Potter and Henry C. Pitot* 797

In vitro and in vivo Restoration of Hepatic Lipogenesis in Fasted Chicks. *Yu-Yan Yeh and Gilbert A. Leveille* 803

Effect of Essential Fatty Acid Deficiency and Type of Dietary Fat Supplementation on Biotin-deficient Chicks. *David A. Roland, Sr. and Hardy M. Edwards, Jr.* 811

Induction of a Specific Enzyme Inadequacy in Infant Rats by the Use of a Homologue of Riboflavin. *Yoom Soo Kim and John P. Lambooy* 819

No. 7 JULY 1971

Dietary and Hormonal Effects on Extended Lactation and Lipid Metabolism in Rats. *R. S. Emery, J. D. Benson and H. A. Tucker* 831

Influence of Urea, Biuret and Starch on Amino Acid Patterns in Ruminal Bacteria and Blood Plasma and on Nitrogen Balance of Steers Fed High Fiber Purified Diets. *L. L. Slyter, R. R. Oltjen, E. E. Williams, Jr. and R. L. Wilson* 839

Influence of Starch and Nitrogen Sources on Ruminal Microorganisms of Steers Fed High Fiber Purified Diets. *L. L. Slyter, D. L. Kern, J. M. Weaver, R. R. Oltjen and R. L. Wilson* 847

Relationship of Arginine and Methionine to Creatine Formation in Chicks. *Kavous Keshavarz and H. L. Fuller* 855

Evidence for Increased Constitutiveness of NADP-linked Dehydrogenases in the Starved-refed Rat. *B. Szepesi, C. D. Berdanier and M. Egawa* 863

Influence of Dietary Protein and Fat on Lipogenesis and Enzymatic Activity in Pig Adipose Tissue. *G. L. Allee, E. K. O'Hea, G. A. Leveille and D. H. Baker* 869

Studies on the Nature of Carbohydrate Moiety in High Yielding Varieties of Rice. *P. Srinivasa Rao* 879

Effect of Dietary Carbohydrate Source in Controlling Body Composition Changes Due to Forced Exercise in Rats. *Richard A. Ahrens and Eunsook T. Koh* 885

Effect of Dietary Carbohydrate Source in Controlling Voluntary Physical Activity in Rats. *Richard A. Ahrens, Lalita Kaul and Maureen E. Hurney* 889

Effect of Previous High Fat Diet on Body Protein Metabolism in Rats. *Kiwao Nakano, Shigeo Kurimoto and Kiyoshi Ashida* 895

Evaluation of Four Methods for Estimating the Milk Yield of Baboons. *David H. Buss and William R. Voss* 901

Studies on the Relationship between Lipogenesis and the Level of Coenzyme A Derivatives, Lactate and Pyruvate in Chick Liver. *Yu-Yan Yeh and Gilbert A. Leveille* 911

Interaction of Dietary Fat and Thyroid Function with Hepatic and Renal Gluconeogenesis of Rats. *Hiroo Suzuki and Hidetsugu Fuwa* 919

Effect of Diet on Iron Absorption in Iron-deficient Rats. *Ezzat K. Amine and D. M. Hegsted* 927

Evidence for Nonessentiality of Linolenic Acid in the Diet of the Rat. *J. Tinoco, M. A. Williams, I. Hincenbergs and R. L. Lyman* 937

Effect of Quality and Quantity of Protein on Body Growth and Hair Growth of the Rat. *L. C. Seier, T. J. Devlin and R. J. Parker* 947

Invitation for Nominations 953

Erratum (Kim, Y. S., and J. P. Lambooy, *91*: 183) 957

No. 8 AUGUST 1971

Ceroid in the Products of Conception of Normal and Vitamin E-deficient Rats. *I. Horowitz and W. Stanley Hartroft* 959

Influences of Monovalent Cations on Growth and Lactic Acid Metabolism of Sheep Fed Purified Diets. *Dixon Lee, Jr. and Gennard Matrone* 967

Effect of Feeding a High Level of Rapeseed Meal on Weight Gains and Thyroid Function of Rats. *M. T. Lo and D. C. Hill* 975

Response of Oxidative Phosphorylation in Rat Liver to Prolonged Protein Depletion. *J. N. Williams, Jr.* 981

Carcass Composition of Chickens Fed Carbohydrate-free Diets Containing Various Lipid Energy Sources. *Hardy M. Edwards, Jr. and Paul Hart* 989

Modification of Ethanol-induced Changes in Rat Liver Composition by the Carbohydrate–Fat Component of the Diet. *Catherine Carroll and Louise Williams* 997

Effects of Vitamin E and Selenium on Rubidium-86 Uptake by Rat Liver Slices. *O. A. Levander and V. C. Morris* 1013

Dietary Amino Acid Requirements of the Aphid *Myzus persicae* Affected by Antibiotic Uptake. *T. E. Mittler* 1023

Human Utilization of Urea Nitrogen in Low Calorie Diets. *Daniel Lino Gallina and José Miguel Dominguez* 1029

Effect of Toxic Levels of Dietary Fluoride on Citrate Metabolism in the Rat. *T. R. Shearer, J. J. Le Saouter and J. W. Suttie* 1037

Ultrastructure of Adrenal Glands in Sodium-deficient Pregnant Rats. *Helen A. Smiciklas, Ruth L. Pike and Harald Schraer* 1045

Food and Energy Intake of Rats Fed Diets Varying in Energy Concentration and Density. *Arne D. Peterson and B. R. Baumgardt* 1057

Influence of Level of Energy Demand on the Ability of Rats to Compensate for Diet Dilution. *Arne D. Peterson and B. R. Baumgardt* 1069

Effect of Protein and Insulin on Linoleic Acid Desaturation of Normal and Diabetic Rats. *Raúl O. Peluffo, Nelva T. de Gomez Dumm, María J. T. de Alaniz and Rodolfo R. Brenner* 1075

Evidence for a Dual Role of Creatine in the Regulation of Kidney Transamidinase Activities in the Rat. *John F. Van Pilsum* 1085

Effect of Supplementary Zinc on the Intracellular Distribution of Hepatic Copper in Rats. *P. D. Whanger and P. H. Weswig* 1093

Postprandial Changes in Insulin Secretion Rates in Sheep. *Allen Trenkle* 1099

Invitation for Nominations 1105

No. 9 SEPTEMBER 1971

Karl Thomas — A Biographical Sketch. *Hans Fisher* 1109

Effect of Excess Levels of Individual Amino Acids on Growth of Rats Fed Casein Diets. *Keiichiro Muramatsu, Hisashi Odagiri, Shigeyoshi Morishita and Hisanao Takeuchi* 1117

Metabolic Responses of Chicks during Adaptation to a High Protein, "Carbohydrate-free" Diet. *Robert M. Evans and Richard W. Scholz* 1127

Utilization of 7-Chloro-8-Methyl-flavin in the Rat and Its Specific Anti-riboflavin Action in the Kidney. *John P. Lambooy, Curtis D. Smith and Yoon S. Kim* 1137

Effect of Length of Starvation, Refeeding, and 8-Azaguanine on Serum Insulin and NADP-linked Dehydrogenases of Rat Liver. *Bela Szepesi, Carolyn D. Berdanier, Suzanne K. Diachenko and Phylis B. Moser* .. 1147

Studies on Hepatic Polyribosomes and Protein Synthesis in Rats Force-fed a Protein-free Diet. *Herschel Sidransky and Ethel Verney* 1153

Maintenance of Nitrogen Balance in a Young Woman by Substitution of α-Ketoisovaleric Acid for Valine. *Daniel L. Gallina, José Miguel Dominguez, Juan C. Hoschoian and Jorge R. Barrio* 1165

Biliary and Urinary Excretion and Enterohepatic Recycling of Vitamin A in Sheep. I. D. *Hume, G. E. Mitchell, Jr. and R. E. Tucker* 1169

Effect of Iron on Lipid Metabolism of *Tetrahymena pyriformis*. *Yei-Mei Peng and C. E. Elson* 1177

Castor Bean Meal as a Protein Source for Chickens: Detoxification and Determination of Limiting Amino Acids. *Laufey Vilhjalmsdottir and Hans Fisher* 1185

Relative Utilization of Casein, Fish Protein Concentrate and Isolated Soybean Protein for Growth and Pancreatic Enzyme Regeneration of the Protein–Calorie Malnourished Baby Pig. *Wilson G. Pond, Wesley Snyder, Jean Twombly Snook, Earl F. Walker, Jr., Deborah A. McNeill and Bruce R. Stillings* 1193

Magnesium Depletion during Gestation and Lactation in Rats. *Feng Lai Wang, Renee Wang, Edward A. Khairallah and Ruth Schwartz* ... 1201

Estimating the Metabolizable Energy of Foodstuffs with an Avian Model. *Robert L. Squibb* 1211

Bioflavonoids as a New Growth Factor for the Cricket, *Acheta domesticus*. *P. F. Neville and T. D. Luckey* 1217

Effect of Dietary Protein Level on Plasma Free Amino Acids in the Chicken. *Iwao Tasaki and Takuo Ohno* 1225

Gall Bladder Distension in Choline-deficient Chicks. *Eli Seifter, Giuseppe Rettura, Joseph Seifter, Arnold Nagler and Stanley M. Levenson* .. 1233

Amino Acid Supplementation of *Opaque-2* Corn Diets for Growing Rats. *R. T. Pick and R. J. Meade* 1241

Protein and Energy Utilization by Chicks Fed Graded Levels of a Balanced Mixture of Crystalline Amino Acids. *J. G. Velu, D. H. Baker and H. M. Scott* 1249

Phosphorus Metabolism in Ponies Fed Varying Levels of Phosphorus. *H. F. Schryver, H. F. Hintz and P. H. Craig* 1257

DNA (Cell Number) and Protein in Neonatal Rat Brain: Alteration by Timing of Maternal Dietary Protein Restriction. *S. Zamenhof, E. Van Marthens and L. Grauel* 1265

Proceedings of the Thirty-fifth Annual Meeting of the American Institute of Nutrition. Pick-Congress Hotel, Chicago, Illinois, April 12–17, 1971 1271

Erratum (Hurt, H. D., E. E. Cary and W. J. Visek, *101:* 761) 1287

No. 10 OCTOBER 1971

Effect of Supplemental Phytase on the Utilization of Phytate Phosphorus by Chicks. *T. S. Nelson, T. R. Shieh, R. J. Wodzinski and J. H. Ware* 1289

Effect of Ascorbic Acid on Cadmium Toxicity in the Young Coturnix. *M. R. Spivey Fox, Bert E. Fry, Jr., Barbara F. Harland, M. E. Schertel and Cora E. Weeks* 1295

Fat and Nitrogen Balances in Rats with Alcohol-induced Fatty Liver. *C. Rodrigo, C. Antezana and E. Baraona* 1307

Influence of Increased Postnatal Food Intake on Body Composition of Progeny of Protein-deficient Rats. *Lindsay H. Allen and Frances J. Zeman* 1311

Stimulation of Hepatic Protein Synthesis in Rats Fed an Adequate Protein Diet after a Low Protein Diet. *Yoshimitsu Horie and Kiyoshi Ashida* 1319

Role of Vitamin E in the Regulation of Rabbit Liver Xanthine Dehydrogenase Activity. *George L. Catignani, Jr. and James S. Dinning* ... 1327

Relationship of Dietary Nonprotein Nitrogen to Urea Kinetics in Dairy Cows. *John S. Mugerwa and H. R. Conrad* 1331

Fatty Acid Oxidation in Young Pigs. *G. M. Miller, J. H. Conrad, T. W. Keenan and W. R. Featherston* 1343

Inversion in the Metabolism of D-Tryptophan in the Rabbit and the Rat. *Horace H. Loh and Clarence P. Berg* 1351

Microscopic and Biochemical Observations of Aortae of Turkeys Fed Copper-deficient Diets with and without Ascorbic Acid. *Charles F. Simpson, R. C. Robbins and R. H. Harms* 1359

Meadow Vole Nutrition Studies with Alfalfa Diets. *J. S. Shenk, F. C. Elliott and J. W. Thomas* 1367

Daily and Diurnal Variations in the Ratio of Nitrogen to Potassium in the Urine of Pigs for the Estimation of the Retained Nitrogen. *Shu Furuya, Seiya Takahashi and Kenichi Kameoka* 1373

Synthesis and Degradation of Mixed Proteins, and Composition Changes in Skeletal Muscle of Malnourished and Refed Rats. *Vernon R. Young, S. C. Stothers and G. Vilaire* 1379

Influence of Insulin, Hydrocortisone and Thyroxine on Fatty Liver of Rats Fed a Low Casein Diet Supplemented with Methionine. *Katuhiko Noda* 1391

Effect of Selenium, Synthetic Antioxidants, and Vitamin E on the Incidence of Exudative Diathesis in the Chick. *M. M. Mathias and D. E. Hogue* 1399

Arginine, Ornithine and Proline Metabolism of Chicks: Influence of Diet and Heredity. *R. E. Austic and M. C. Nesheim* 1403

Fat Utilization and Lipogenesis in the Young Pig. *G. L. Allee, D. H. Baker and G. A. Leveille* 1415

Amino Acid Composition of Cecal Contents and Feces in Germfree and Conventional Rabbits. *Tsutomu Yoshida, Julian R. Pleasants, Bandaru S. Reddy and Bernard S. Wostmann* 1423

Scandium, Chromium (VI), Gallium, Yttrium, Rhodium, Palladium, Indium in Mice: Effects on Growth and Life Span. *Henry A. Schroeder and Marian Mitchener* 1431

No. 11 NOVEMBER 1971

Progressive Histochemical and Ultrastructural Changes in the Zona Glomerulosa Induced by Sodium Deficiency during Pregnancy in the Rat. *Helen A. Smiciklas, Doris G. Pohanka and Ruth L. Pike* 1439

Visceral Granuloma in Brook Trout (*Salvelinus fontinalis*). *Clarence E. Dunbar and Roger Lee Herman* 1445

Relationship of Growth Hormone to the Growth Retardation Associated with Maternal Dietary Restriction. *Joanne K. Stephan, Bryant Chow, Lawrence A. Frohman and Bacon F. Chow* 1453

Effect of Riboflavin Depletion and Repletion on the Erythrocyte Glutathione Reductase in the Rat. *Jerry Ann Tillotson and Howerde E. Sauberlich* 1459

Effect of Starvation, Dietary Protein and Partial Hepatectomy on Rat Liver Aspartate and Ornithine Carbamoyltransferases. *E. J. Durkin and M. T. Nishikawara* 1467

Protein Value of Colombian *Opaque*-2 Corn for Young Adult Men. *V. R. Young, I. Ozalp, B. V. Cholakos and N. S. Scrimshaw* 1475

Magnesium Metabolism of Sheep Fed Different Levels of Potassium and Citric Acid. *W. A. House and D. Van Campen* 1483

Inability of the Growing Rat to Substitute L-Histidinol for L-Histidine. *Ahmed R. Kotb and Robert L. Wixom* 1493

Nitrogen Balance of Men Fed Amino Acid Mixtures Based on Rose's Requirements, Egg White Protein, and Serum Free Amino Acid Patterns. *Lee Alyce Weller, Doris Howes Calloway and Sheldon Margen* 1499

Undernutrition and Intestinal Dipeptide Hydrolase Activity in the Rat. *Vijay Kumar and H. Peter Chase* 1509

Specific Inhibition of Cholesterol Absorption in Sulfaguanidine-fed Rats. *J. F. Van Den Bosch, G. A. Janssen, H. Eyssen and H. Vanderhaeghe* 1515

Serum Deoxyribonuclease I and Its Inhibitor in Growing and Pregnant Rats. *Eugenia Colombara, Monica Ihl and Maria Angelica Tagle* .. 1525

Selenium and Tellurium in Rats: Effect on Growth, Survival and Tumors. *Henry A. Schroeder and Marian Mitchener* 1531
